DETAILED ACTION

Election/Restrictions

Claims 2, 3 and 11-15 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the claims were originally examined as including the corner rails, but the combination without the corner rails is patentably distinct from the invention originally claimed and examined.

Newly submitted claims 17 and 18 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: they replace the structure originally claimed with patentably distinct rails.

Newly submitted claim 19 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: it is a subcombination distinct from the originally presented combination.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 2, 3, 11-15 and 17-19 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3671

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hess (U.S. Patent 5,310,289).

Hess discloses a shoring system including linear rails (1, 2) having the inner and outer guides arranged as claimed (Figure 2, for example). There are strutting assemblies (6) having a horizontal spreader (7, 8) and vertical members (9, 10). There are shoring panels (4, 5) which interlock and vertically slide within the guides of the rail.

Allowable Subject Matter

Claims 4-9 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3671

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
